FUND COMMENTARY

AlphaNorth Growth Fund

June 2016

NAV
Series A (ANF010) \$2.033
Series F (ANF011) \$2.118

Fund Review The Fund returned 10.2% in June. This compared to 7.7% for the TSX Venture and 0.3% for the TSX Total Return index.

We added to the Fund's technology weighting during the month. One of our new positions was an investment in **Eguana Technologies (TSXV:EGT)** which makes proprietary inverters which are integrated with battery storage and renewable energy generators. The company has been gaining significant traction with major integrators as the preferred inverter supplier. As a result, the shares have performed very well, rising by 30% to June 30th since our purchase. The company recently completed an oversubscribed financing and is now well financed to execute on its business plan in the coming year.

Whenever possible, we are trying to acquire warrants for the portfolio to increase leverage to upside returns. For example, recent private placements in **Blackbird Energy (TSXV:BBI)** and **Helius Medical Technologies (TSX:HSM)** included warrants. We are excited about the prospects for both of these companies.

The current sector mix is comprised of 2% in cash, 24% in technology, 16% in health care, 6% in consumer discretionary, 17% in energy and 35% in materials.

Outlook The big news of the month was Brexit which has come with much fanfare. There is a long history of events such as this which have provided great buying opportunities for equities and this time was no different. In our view, this was an immaterial event for the junior companies in which we follow. Those investors who reduced equity exposure in advance of the Brexit vote undoubtedly thought they were acting shrewdly for two days before equity markets rebounded strongly hitting new all-time highs in the U.S. It is highly unlikely that these investors repurchased their equity positions near the lows and it is much more likely that these investors will be buying at higher levels than at which they sold.

Sentiment in the junior space has only started to turn positive, yet much skepticism remains. As sentiment continues to improve so too will returns. At this early stage of the cycle, the gains have been dominated by the precious metal stocks. However, the metal and energy stocks are also starting to attract investor attention. We are confident that the bear market has ended and it is our position that we are still only in the early innings of the current turnaround. Historically, the highest returns have been realized by investors who purchased after periods of significant decline. We believe that this is one of those times.

Regards,

Steven Palmer, CFA

Investment Strategy

The AlphaNorth Growth Fund (the "Fund") is an **open-ended mutual fund** focusing primarily on Canadian small to mid-capitalization equities, between \$100 million and \$5 billion market capitalization. The Fund employs a similar style and investment methodology as the highly successful AlphaNorth Partners Fund. The Fund's investment objective is to maximize returns over the long term through superior selection of principally Canadian securities. AlphaNorth believes that superior long term investment returns are achievable by exploiting inefficiencies in the Canadian small to medium-cap universe through careful security selection. Fundamental analysis of companies is used in combination with technical analysis techniques, have proven to be successful, to assist in the timing of buy/sell decisions. The firm combines both a bottom-up and top-down strategy in the selection of investments offering the best risk/reward characteristics.

Company Profile

Founded in 2007, AlphaNorth Asset Management's goal is to achieve superior long term returns for investors. Our value added approach combines the successful track record and investment experience of Steven Palmer and Joey Javier who have worked together as a team since 1998 in the investment industry. Presently, AlphaNorth manages the AlphaNorth Partners Fund, a long biased small cap focused hedge fund, the AlphaNorth Resource Fund and the AlphaNorth Growth Fund.

Key Personnel:
