# FUND COMMENTARY

## AlphaNorth Resource Fund

July 2016

NAV  
Series A (ANF020) \$12.619  
Series B (ANF040) \$12.357  
Series F (ANF021) \$12.968

**Fund Review** In July, the Fund performance was 10.7%. This compares to the TSX Venture index return of 9.0% and the TSX Small Cap index return of 5.4%. We are pleased that the Fund's string of winning months has extended for a 6th month, in July. Currently, the Resource Fund ranks as the #1 performing fund in 2016 in the Globefund database of over 28,000 funds.

In July, we took profits on **Trevali Mining (TSX:TV)**. As a result of the strength in zinc pricing, the stock has almost doubled since the beginning of the year. We believe there is a strong case to be made for investing in zinc explorers, developers, and producers over the coming years. We will look to re-enter some of these outperformers in the event of a pullback. The few pure play zinc names in Canada bodes well for the stock prices in the longer term. In the meantime, we have reallocated funds to precious and base metal companies, in which share prices have lagged.

One of the Fund's top performers recently has been **Blackbird Energy (TSXV:BBE)**. BBE recently announced that it is acquiring a minority interest in Stage Completions, a private company that owns a proprietary technology for oil and gas well completions. Management believes that the new technology is a vast improvement over current technology, which results in significant cost savings for oil and gas producers. The stock price has increased significantly over the past two months and we expect this strong performance to continue, leading up to the next two wells and updates from Stage Completions. We believe that the investment in Stage Completions adds significant value to the company. In this low pricing environment, Blackbird management has hit all milestones and has been able to cut capital costs more than its competitors, without sacrificing well quality or performance. We expect approval to commence infrastructure build out in the near term, which will allow the company to transition to cash flow.

**Outlook** North American equity markets are 'climbing the wall of worry'. The usual group of bearish newsletter writers have resurfaced in the financial press with forecasts of doom, as indices have advanced to new highs. Despite the negative commentary in the media, North American equity markets have continued to push higher.

Although there are reasons to have a negative outlook, we continue to believe that there are more relevant positive drivers for equities at the present time. We have highlighted some of these in previous commentaries. These include various sentiment indicators, and the lack of cheaper alternatives in the current low yield environment. An example which reflects the negative sentiment, is a recent survey which showed that since 2001, global fund managers have cash levels at the highest level. High cash levels are a characteristic near market lows. We believe equities remain cheap compared to other asset classes, and will continue to perform strongly. For Canadian small cap equities which is the focus of our portfolios, the opportunity is even more substantial. **It is increasingly apparent that the Canadian junior market bottomed in January 2016, at which time investor sentiment indicators were at negative extremes. The TSX Venture hit an all-time low, but has since rallied dramatically over the past 7 months. We believe Canadian small cap equities are just beginning a powerful bull market cycle. We urge investors to take immediate action, to gain exposure at this time, to what we believe will be among the best performing asset classes over the next few years.**

Regards,

Steven Palmer, CFA  
President and CEO

## Investment Strategy

The **AlphaNorth Resource Fund** (the "Fund") is an **open-ended mutual fund**. The investment objective of the Fund is to generate strong returns by investing in Canadian resource companies that offer attractive risk-reward characteristics. The Fund invests primarily in junior and intermediate Canadian resource companies, and will evaluate industry and company fundamentals to evaluate investment opportunities which offer the most attractive risk-reward characteristics. AlphaNorth believes that superior long term investment returns are achievable by exploiting inefficiencies in the Canadian small to medium-cap universe through careful security selection. Fundamental analysis of companies is used in combination with technical analysis techniques, which have proven to be successful, to assist in the timing of buy/sell decisions. The firm combines both a bottom-up and top-down strategy in the selection of investments offering the best risk/reward characteristics.

## Company Profile

Founded in 2007, AlphaNorth Asset Management's goal is to achieve superior long term returns for investors. Our value added approach combines the successful track record and investment experience of Steven Palmer and Joey Javier who have worked together as a team since 1998 in the investment industry. Presently, AlphaNorth manages the AlphaNorth Partners Fund, a long biased small cap focused hedge fund, the AlphaNorth Resource Fund and the AlphaNorth Growth Fund.

### Key Personnel:

**Steven Palmer** is the President and CEO of AlphaNorth Asset Management. Mr. Palmer started his career in the investment industry in 1995 on the sell side of the business before transitioning to the buy side in 1997. Most recently, from July 1998 to August 2007 he was employed as Vice President - Canadian Equities at one of the world's largest financial institutions where he managed the Canadian equity assets of approximately \$350 million. Mr. Palmer managed a pooled fund focused on small capitalization companies from inception in 1998 to August 2007 achieving returns that were ranked #1 in performance by a major fund ranking service in their small cap pooled fund category (35.8% annualized over 9 years as compared to 10.0% for the S&P/TSX Composite and 13.0% for the BMO Weighted Small Cap Total Return Index) over the same period. Mr. Palmer also managed a large cap fund which was ranked in the first quartile for the following time periods: one year, two year, 3 year, 4 year, 5 year and 10 year. Mr. Palmer earned a BA in Economics from the University of Western Ontario and is a CFA.

**Joey Javier** is Vice President and Secretary of AlphaNorth Asset Management. Mr. Javier started his career in the investment industry in 1997 as an Equity Trader for one of the world's largest financial institutions where he worked together with Mr. Palmer as the equity team. Mr. Javier was responsible for all equity and money market trading as well as back-up for the fixed income portfolio manager. Mr. Javier has a BA in Economics from York University and is a CIM.
